

How to set up a GotSoccer Family Account:

You can **ONLY** set up a family account by following Registration Link that was included in the email.

Please contact WYS for a complete Family Account management manual.

1 – At that link click on **Create a Family Account**, in this area:

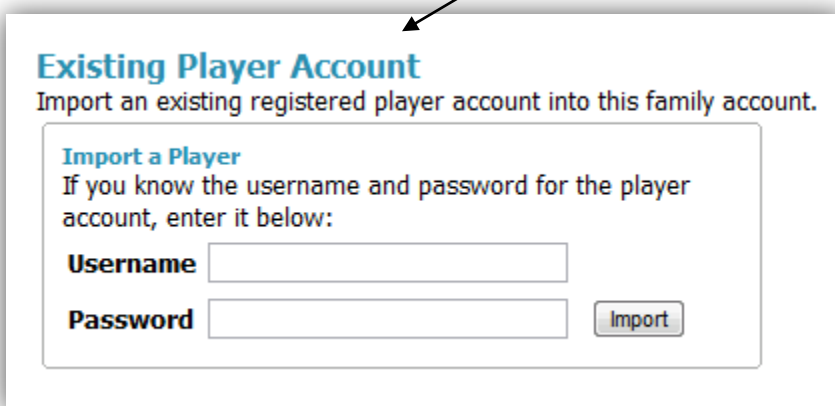

2 - Complete the account registration. Be sure you make a note of the user name and password you create. This account will allow you to only have to log into one place to manage all your players.

3 – After you create the family account a window will open at family account home. Here is where you can add your children to the account.

4 – Click on the add player to family link:

5 – A window will open and in this box...:

Import a Player

If you know the username and password for the player account, enter it below:

Username	<input type="text"/>	
Password	<input type="text"/>	<input type="button" value="Import"/>

Enter the second child's Username and Password and click Import (if there are more children, repeat). You can also open each child's profile to view and update or make any corrections.

It's really useful to keep the player profile updated; a great way to maintain a player's soccer resume.
